Biography.

It all started with grandpa pulling a coin out of my ear. I was about 3 years old then. After that I had a magician at my birthday party for the next few years. My parents saw the desire I had, so they took me to a magic store when I was 7. That was it for me. I knew from there on that I had a calling and the calling was Magic.

I performed for the first time at a neighbor's house for their child's birthday. I was only 10 years old. Then I was fortunate to go to magic camp at the age of 13. I learned about sleight of hand, or close up magic from some of the best magicians in the world. It became almost like an obsession. I practiced everyday; I still practice everyday. By the time I was 15 I was performing at Restaurants, Family functions and some upscale events.

At 18 I moved to Florida for college. I studied Business to Biology and Philosophy to Psychology. In college there was a class that taught you how to "heighten" your intuition. I believe the class was called "ESP, Believe it or not." I had finally found something in college that would aid me in the entertainment field. All of this education made me realize that the only thing I wanted to do was entertain. I gathered all my knowledge from college and I put it into my magic and mentalism.

It was time to put everything I learned to work, so I moved to South Florida (Palm Beach) to look for work and landed the job that would soon be my stepping-stone for a successful career. I got a job performing 5 days a week at the Boca Hotel Resort and Spa. It was a place to really hone my skills and to develop the person I am today. I got to perform for some impressive people such as: Ben Affleck, Gwyneth Paltrow, Cast of 90210, Sylvester Stallone, Penny Marshall and many others.

Six years later I am back in New York. My clients are all over the U.S.A. I know it is cliché, but I LOVE NEW YORK. I perform anywhere my clients need me, whether it is in the office in New York, or their office in Toronto, Canada. I love what I do. It is so much fun! I get to see so many amazing places, meet so many different kinds of people and most of all I get to make people smile.

Magic Shows & Mind Reading.

Strolling Magic: Strolling Magic is suited for every event. Michael combines magic, mind reading and hypnosis into his routine. Time is not an issue for this kind of performance. You can use him for a cocktail hour, or for your entire event. Michael is known to do this for hours at a time to help promote companies and products. Mike walks around the event and performs "eye popping" Magic and "mind bending" Mentalism. He uses everyday objects to create a magical and mystical event for you.

Cabaret Shows: Magic and Mind Reading shows are suitable for almost any event. Mike can perform for 5 minutes to 50 minutes. He combines his surreal Magic and Mind Reading with comedy to create an unforgettable evening. Mike Kirschner is considered to be one of best METAL BENDERS in the world. By using a form of psycho-kinesis; he is able to take spoons, forks, coins and keys and bend them right before you. This is not done by physical strength. They just seem to melt in his hands

and the spectator's hands. It is almost scary.

Family Shows: Family shows are 45 minutes to 1 hour long. He combines Magic, slapstick comedy, live animals, visual props and audience participation. This show is nothing less than fun. As a client of Mike Kirschner, I can say that it is so amazing watching Michael in action. He gets the crowd going. My guest and clients are always laughing and having a great time. I think that is why I use him to coordinate and entertain at all my events. Hire Mike Kirschner to make you next event a Magical Event.
